### Dear Commodore or Amiga Owner:

As you read this, we'll be operating from our brand new headquarters. About twice the size of our old facility, our new office and warehouse incorporate state of the art telephone and computer systems.

We've invested in these new facilities to better serve you, our valued customer. We'll have more space to house our huge inventory (over 50,000 items!), bigger and better facilities for loading and unloading trucks, new material handling equipment...in short, everything we need to continue to provide our customers with the best service in the business.

In this catalog, you'll notice a greater selection of Amiga products. Since Commodore first introduced the Amiga, we've felt it was an outstanding product.

We've seen increased levels of interest in the Amiga by current C64 and C128 owners, and we're responding to that interest by carrying not only the full line of Amiga hardware from Commodore, but also a wide variety of software, hardware, and accessories from other manufacturers.

Thanks again for your continued support. Without it, we wouldn't be here, much less be forced to expand once again. Be assured that we'll continue to support Commodore and Amiga users, and to continue to provide the best in products, service, and prices.

## Back-Up Protected Software!

**MAVERICK.** Never again face the dilemma of how to make backup copies of copy protected software. With today's new methods of copy protection, you need a copy system that is not only powerful but affordable. Maverick is both. It copies most protected programs on the market today, many of which cannot be touched by any other copies, and it is even upgradable. For archival backup only. Formerly called Renegade. Sug. **MAVIS BEACON TEACHES TYPING.** Forget the simple letter drills - when was the last time anyone typed "asdfdsa" at work? Using a combination of artificial intelligence and striking graphics, this program teaches typing faster than any program on the market.

Each lesson is tailored for work in the real world from a database of over 1,000 passages from history's greatest writings. For youngsters, Mavis offers jokes, riddles, rhymes, interesting facts and records from the Guinness book of World Records.

Mavis "speaks" to her students in complete, conversational sentences as she analyzes typing errors and progress - with more than just "bleeps" when an incorrect key is hit. She even senses when the student is tired and suggests a break at the Indy Racer game!

Many other features are included in this outstanding typing tutor, such as: a metronome selection, Dvorak keyboard option, a resume writer, user-designed lessons, and suggestions for business teachers developing their own lessons.

# The Ultimate Drawing Program

**Inkwell  
Systems**

**Swap Graphics  
Between Programs**

**\$22<sup>95</sup>**

**\$24<sup>95</sup>**

"Professional quality graphics program... excellent line of light pens." "There is no question in my mind you won't be disappointed"

—Commodore Magazine

"The best drawing program around"

—Midnight Gazette Software

**FLEXIDRAW VERSION 5.5.** This version of the ultimate drawing program has more features than ever. You can still use a light pen as your input tool (sold separately - see below), or you can use a mouse, joystick, or Koala pad. Whether you are doing simple free-hand sketches or complex CAD-type drawings, Flexi-draw has the power you need with its top quality hi-res graphic input and editing system. The master disk has the main drawing routines for use with the light pen, as well as sample drawing library, symbol templates, and a music synthesizer program. A programming mode lets you access the drawing routines from BASIC. The sprite editor/animater adds a great plus to FLEXIDRAW - there's no easier way to edit sprites than with a light pen. The most powerful feature is the ability to use a set of symbols (yours or ours) which can be moved to a second work screen and added to a drawing. FLEXIDRAW is easy to use due to the sophisticated menu system which is similar to those of large computer drafting systems; maximum detail is possible. Free-hand drawing is very smooth because of an "averaging" function that filters out noise and jitter. From Inkwell Systems. Sug. Retail \$34.95

**X-SPECS 3D.** Have you ever been disappointed by games that advertise 3D graphics only to find the graphics were flat and lifeless? With X-Specs 3D, all that has changed. These special glasses just plug into your Amiga, and the results are breathtaking. Because each of your eyes is presented with a slightly different image, you'll see full depth, full color 3D. Dozens of software developers, including many of the 'big name' companies are working on software to take advantage of this revolutionary technology. You don't have to wait, though — each set of glasses comes with a group of sample 3D images, a program that lets you display any pair of IFF images in 3D format, and a fantastic 3D arcade game called Space Spuds. The package also includes an adapter that plugs into your second joystick port and accommodates up to two pair of X-Specs. Sug. Retail \$124.95

**NX-1000.** This printer has been specifically designed for those who insist on quality, capability and reliability. The NX-1000 gives you the choice of pitches and print styles like: Courier, Sanserif, Orator-1, and Orator-2 type styles, in a choice of Pica, Elite, Condensed Pica, and Condensed Elite. Italic is available in all print modes. Get near-letter-quality at 36 cps, and high-speed draft quality at a blazing 144 cps. With the aid of the new paper parking function you can now use the single sheet feeder without removing the tractor feed. "Push" style tractor reduces paper waste (you don't have to advance to the next page to remove your work.) The operator panel has been designed for easier use and enables soft-touch selection. The control panel also features LED indicator lights for instant confirmation of power, type styles, print pitches, and on-line status. Extra features like enlarged and proportional printing are also included on the NX-1000, a printer that easily out-distances all other printers in its class.

# Enter The Exciting World Of Telecomputing!

One of the most popular uses of home computers is to "talk" to other computers and computer users. The diversity of on-line services is staggering - from the latest news to airline schedules, from stock prices to interactive adventure games, from electronic mail to patent searches - all you need is your computer, a modem, terminal software, and a phone line. In

addition to the national on-line databases, like the Source, CompuServe, Dow Jones, and others, there are hundreds or even thousands of local "bulletin boards" run by user groups or individual enthusiasts. Telecomputing is so much fun and offers such a variety of activities that for many users it is the principal use of their home computer.

## 100% Error Free! Lifetime Warranty! Risk Free Trial!

### The 39¢ Diskette

**Please Note:** Single-sided disks are for use in single-sided drives like the 1541. Double-sided disks are for use in double-sided drives like the 1571 (in some modes) or IBM compatible drives. Single-sided disks and double-sided disks look absolutely identical; the only difference is that on the latter, the second side is tested and certified error free. To access both sides of a disk when using a single-sided drive, you must add a second notch and physically turn the disk over. See Disk Doubler on page 53.

TENEX Diskettes are one of the best-selling items in our catalogs (we've sold literally hundreds of thousands of these diskettes!). They are an excellent buy in our quantities of 50, and their reliability, lifetime warranty and risk-free trial means you are sure to get your money's worth.

#### Here's What You Get.

Each box includes diskettes in sleeves, labels, and write-protect tabs. All 5.25" diskettes have a hub reinforcement ring and the 5.25" diskettes come with sleeves.

#### Certified Quality.

TENEX Diskettes are first quality, prime diskettes (no seconds) Each one is individually certified to be 100% error free at levels equal to or above ANSI, ECMA, and ISO standards.

#### Lifetime Warranty and Risk Free Trial!

We offer a double guarantee of satisfaction: 1) All diskettes are backed by a lifetime warranty. If you have a problem, we'll replace the diskette. 2) To let you discover what a great value these diskettes really are, we'll let you try them risk free. Buy a box, and if within 30 days you aren't happy with the diskette for any reason, return them to us for prompt refund. No questions asked!

## Cartridge Port Extender Cable

**CARTRIDGE PORT EXTENDER.** Are you cramped for space behind your computer? Is it hard to reach your cartridge port to plug-in or swap cartridges? This handy cable is your solution.

The cartridge port on the C64 and C128 is unfortunately located in a somewhat awkward position - horizontally in the back, where it is hard to reach and impossible to see. Many users have installed cartridge expanders, which not only let you switch cartridges easily but also place them vertically for easier access. The cartridge expander, though, takes up a few more inches of table space - no problem for most users, but a drawback for those working in tight quarters. The cable connects to the cartridge port in back of the computer and lets you plug in your cartridge to its other end. Since the cable is flexible, you can locate the cartridge up to 11" away for easier access and more efficient use of table space. Not for use with memory expansion modules.
